about this:

The landlady said the fireman said it looked like the fire had been set, etc. this was further marry to me! I could only imagine. Since the warrell-woman age - nearly 70 - had been talking about my sons for so long and seemed to have so much undercover "power" she and her daughter wanda, I was afraid ^ them - and as they, etc. !! ron is, still over there. She simply said I'd be sorry, etc. A suicide once, and it looked like, since she tried she said he wouldn't again - but my landlady is rather senile or something. But she continued staying here for an old room @ $25 per wk. (What I'm getting at is that evidence points to police involvement and coverup in some cases and they show no regard for humanity, human rights, human debris ("winos", etc) murder thy pts. etc. - where are the employment benefits etc. told of in the "campaigns"? I haven't told my ex-wife about this - its so shattering and its just me and my dear, tearful son. that those last hours until he went his way - to where. I found at the near intersection a .22 cal (long) bb bullet with teeth marks on it treaded tennis shoe tracks along the side walk over the place and no one to care, no one to try to check. Please do then, and I will expect your soon reply. This area, I promise you, long ago (JFK care, etc.) - re past data! has no defense against brutal infiltration. Right now, for rape - they won't even get a single plight young black rapist in the east side area, etc. I hope against hope, but it's blind. I need the signs. Please reply when you can.

(Confidential - then)

Sincerely,
Charles R. Stone

(I think he believe Henry purposely erased his - (if this is the situation).
